

Ag and Food Practice Group Services

Aires Consulting is a full service Environmental, Health and Safety provider that offers a diverse set of disciplines, including Agribusiness and Food industry occupational health, safety and environmental consulting services.

Regulatory compliance and loss control pose unique challenges in the agribusiness and food industries. Seasonal employment, family farms, corporate employees, language barriers, processing/packaging plants, and sanitation, regulatory exemptions, etc. make it critical that loss control goes well beyond regulatory compliance. Aires' experience in both General Industry, Food and Agribusiness goes all the way back to our roots in 1985. Agribusiness and Food companies have complex operations. **We do not claim to be experts in each and every element of this special niche market, but our diverse experience makes us experts in a variety of disciplines. We know you will have needs at one time or another, but when you do—you can count on Gallagher and you can count on Aires!**
